Consafe Logistics
Our business, your advantage

MarkMan™

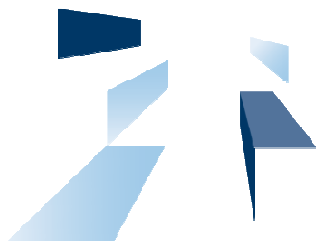

MarkMan is a versatile, one-stop labeling solution for manual and automatic labeling of pallets, cartons and boxes.

MarkMan™

A Flexible Labeling System

- A one-stop solution for labeling cartons, boxes and pallets
- User-friendly interface
- Automatic or manual label application
- Adaptable to different customer needs
- Supports multiple layouts
- Can be configured to generate individual lot/batch/pallet numbers
- Designed to be fully integrated with existing ERP/WMS systems
- SQL Server database with admin interface

MarkMan™

A Flexible Labeling System

- Choice of number of sides to be labeled on pallets (1-4)
- Handles signal exchange and control over conveyor systems, including recipe for wrapper
- Supports identification of goods to be labeled through barcode scanning, using fixed and/or handheld scanners
- Handles reporting of produced quantities for planned manufacturing orders in the ERP system
- Intelligent error handling including statistics and reports for preventive maintenance
- Handles planning of labeling data to production lines for carton and box labeling
- Supports various types of labeling equipment

MarkMan™

MarkMan Process Flow

1 Identify

Goods to labeled are identified using e.g. barcode, RF-ID, PLC

2 Create label data

Identification data connects to the database, and label information is created

3 Print

Label is printed

4 Apply

Label is applied - automatically or manually

5 Verify

Verify applied label through barcode scanning

6 Report

Report to the ERP / WMS system

MarkMan™

User-friendly interface

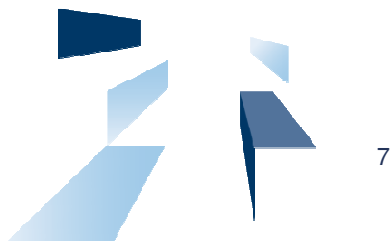

- Detailed view of printer status and/or printer errors.
- Built-in function for pallet removal from conveyor in case of error.
- Planning of manufacturing orders and/or items may be executed as a base for labeling
- Reporting according to planned manufacturing orders is supported.

MarkMan™

Our Offer

- Easy-to-use system with user-friendly interface
- Built-in error handling for full control over labeling processes
- Tested and proved labeling solutions, installed worldwide
- Extensive experience from integration with most ERP/WMS systems
- Turn-key solution including hardware and support
- A reliable, long-term partner
